

COLLEGE OF PLANT SCIENCE AND CROP PRODUCTION (COLPLANT)

Department of Soil Science and Land Management

Ph.D. (Soil Fertility)

ONAOLAPO Musiliat Mopelola

Thesis: Management of Home and Municipal Sorted Wastes for Nutrient Recycling in Organic Tomato (*Lycopersicon esculentum* Mill.) Production

Supervisor: Prof. C.O. Adejuyigbe

Ph.D. (Soil Microbiology and Biochemistry)

OLUBODE Ayooluwa Adebanke

Thesis: Evaluation of Drought Tolerance in Rice (*Oryza sativa* L.) Varieties Supplied with Arbuscular Mycorrhiza Fungi (AMF) and Potassium Fertilizer

Supervisor: Prof. O.A. Babalola

Ph.D. (Pedology)

TOBORE Anthony Olamiji

Thesis: Land Use Dynamics, Variability and Suitability Evaluation of Wetland Soils of Ogun-Oshun River Basin for Rice Production

Supervisor: Prof. B.A. Senjobi

Ph.D. (Soil Physics/Soil Conservation)

ALASINRIN Sikiru Yusuf

Thesis: Evaluation of Greenhouse Gas Emission and Soil Physical Properties under Tillage Systems and Fertilizer Types in Abeokuta, Southwest Nigeria

Supervisor: Prof. F.K. Salako

Ph.D. Soil Physics

OLUTOBERU Taiwo Samson

Thesis: Measured and Predicted Soil Hydro-Physical Properties under Tillage Intensity and Weed Control Practices in Cassava Cultivation in South west Nigeria

Supervisor: Prof. F.K. Salako

Ph.D. Soil Chemistry

OLOWOBOKO Toyin Blessing

Thesis: Impacts of Soil Amendments on Phosphorus Fractions, Sorption Characteristics, Uptake, and Maize (*Zea mays* L.) Dry Matter Yield in some Soils of Ogun State, Nigeria

Supervisor: Prof. J. O. Azeez

EKEBAFE Mariam Ozazoduwa

Thesis: Effects of Modified Oil Palm (*Elaeis guineensis Jacq*) Empty Fruit Bunch on Primary Nutrients Release and Phosphorus Sorption Characteristics in Soils of NIFOR
Supervisor: Prof. J. O. Azeez

Department of Plant Breeding and Seed Technology

Ph.D. Plant Breeding

KOMOLAFE Ronke Justina

Thesis: Diversity, Correlation and Genotype x Environment Interaction in Okra (*Albimmoschus esculentus* L. Moench)

Supervisor: Prof. O.J. Ariyo

ADERINOLA Adebowale Patrick

Thesis: Genotyping Mutagenised Ofada Rice (*Oryza sativa var. ofada*) for Divergence, Nutritional and Biochemical Properties

Supervisor: Prof. F.A. Showemimo

ADEWUSI Kayode Matthew

Thesis: Phenotyping, Genetic and Nutritional Analysis of Mutants Derived from FUNAABOR 1 and FUNAABOR 2 Ofada Rice Varieties (*Oryza sativa var. ofada*)

Supervisor: Prof. F. A. Showemimo

Department of Crop Protection

Ph.D. Crop Protection

ADEDIBU Okuyinka Bosola

Thesis: Management of Bacterial Wilt (*Ralstonia lypersicum* L.) Using Cultural Methods and Plant Resistance Activators

Supervisor: Prof. A.R. Popoola

TOWOJU Funmilayo Elizabeth

Thesis: Studies on Amaranth Contamination by Organochlorine Insecticide and some Alternative Insect Pest Control Methods

Supervisor: Prof. O. R. Pitan

ADEOTI Adewale Opeyemi

Thesis: Impact of some Cultural Practices on Population Densities of Insect Pests of Cucumber (*Cucumis sativus* L.)

Supervisor: Prof. O.R. Pitan

MOKWUNYE Idongesit Umanah

Thesis: Studies on Ecology and Chemical Control of the Stem-Girdler, *Analeptes trifasciata* Fabricius (Coleoptera: Cerambycidae), on Cashew (*Anacardium occidentale* Linn)

Supervisor: Prof. O.R. Pitan

Ph.D. (Plant Pathology)

OTUONYE Azuka Henry

Thesis: Evaluation of the Morphological, Molecular and Pathogenic Variability of the Blackpod Pathogen (*Phytophthora species*) of Cocoa (*Theobroma cacao* Linn.) in Nigeria

Supervisor: Prof. O.A. Enikuomehin

Department of Horticulture

Ph.D. Horticulture

OJO Olayinka Oluyemi

Thesis: Growth and Flowering Response of Balsam (*Impatiens balsamina* Linn) to Poultry Manure and Drought Stress on Three Soil Sample Types

Supervisor: Prof. E.A. Makinde

OWOLABI Christiana Olusola

Thesis: Elements as Influenced by Trimming or Mowing

Supervisor: Prof. J.G. Bodunde

Department of Plant Physiology and Crop Production

Ph.D. (Crop Production)

ONI Olanrewaju Emmanuel

Thesis: Response of Three Lowland Rice (*Oryza sativa* L.) Varieties to seedling age and Plant Population in a derived Savanna Agro-ecology of Nigeria

Supervisor: Prof. A.A. Oyekanmi

ADESHOLA Titilola Ajoke

Thesis: Growth and Yield Response of Tigernut (*Cyperus esculentus* L.) Varieties to Types and Rates of Animal Manure and Seasonal Variation in Derived Savana Zone of Nigeria

Supervisor: Prof. T.O. Fabunmi

Ph.D. Weed Science

AJANI Oluseyi Ayodeji

Thesis: Growth and Yield Response of Cowpea (*Vigna unguiculanta* L. Walp) to Stand Density, Period of Weed Interference and Weed Control Methods in a Forest Savanna Transition Zone, Nigeria

Supervisor: Prof. J.A. Adigun

COLLEGE OF PLANT SCIENCE AND CROP PRODUCTION (COLPLANT)

Department of Soil Science and Land Management

M. Agric. Pedology

KAREEM Jamiu Adufe

Thesis: Characterization, Classification and Quality Potentials of Wetland Soils for Lowland Rice (*Oryza sativa*) Production in Two Locations of Ogun State, Nigeria

LAWAL Kadiri Olumuyiwa

Thesis: Geospatial Assessment of Wetland Soils for Rice (*Oryza sativa* L.) Production in Yewa North Local Government Area of Ogun State, Nigeria

M. Agric. Soil Fertility

GEORGE Emem Emmanuel

Thesis: Effects of Biochar of Different Particle Sizes and Poultry Manure Amendment on Soil Properties, Nutrient Uptake and Vegetative Growth of Fluted Pumpkin (*Telfaria occidentalis* Hooks, F.)

M. Agric. Soil Physics

IKYAAHEMBA Philip Tordue

Thesis: Leaching as Affected by Mulching and NPKMg Fertilizer on an Ultisol Cultivated to Oil Palm (*Elaeis guineensis* jacq) in Edo State, Nigeria

IBILOYE John Olufemi Odeniyi

Thesis: Effects of Tillage and Rock Fragments on the Performance of Maize (*Zea mays* L.) and its Implication on Soil Nutrient Management

Department of Plant Breeding and Seed Technology

M. Agric. Seed Technology

SAMSON Elijah Abiodun

Thesis: Effects of Harvest and Storage Period on Seed Quality Components and Storage Life of Groundnut (*Arachis hypogea* L.) Genotypes under Ambient Conditions

M. Agric. Plant Breeding

OJO Ayodeji Akinfolarin

Thesis: Yield Stability Analysis of Three-Way Cross Hybrid Maize (*Zea mays* L).Grown in Three Environments

LINUS Rita Adaeze

Thesis: Diversity and Stability Analysis of some Bambara Groundnut (*Vigna subterranean* L. Verdc.) Accessions

NWOGWUGWU Precious Amarachi

Thesis: Diversity Studies in 21 Maize (*Zea mays* L.) Accessions Based on Agro-Morphological Characters and Diversity Array Technology (DarTs)

AKINWALE Yusuff Adisa

Thesis: Genetic Diversity, Correlation and Path Analysis in Composite Population of Maize (*Zea mays* L.) Genotypes

M. Agric. Seed Science and Technology

ATANDA Titilayo Deborah

Thesis: Effect of Storage Environment and Ageing Duration on Physical, Physiological and Biochemical Attributes of Kenaf (*Hibiscus cannabinus* L.) Seeds

Department of Crop Protection

M. Agric. Crop Protection

ELUFISAN Tobi Susan

Thesis: Evaluation of some Biopesticides in the Management of *Meloidogyne incognita* and Incidence of Viral Symptoms in Four Tomato (*Solanum lycopersium* L.) Cultivars

ILORI Anthony Kolawole

Thesis: Bio-Efficacy of Five Botanicals for the Control of Viral Diseases, Aphid Population Density and Yield of Cucumber (*Cucumis sativus* L.)

OLUWAFEMI Blessing Oluwaseun

Thesis: Damage Assessment of some Commodities Infested by *Araecerus fasciculatus* De Geer and Determination of Microbial Composition of Dust from the Commodities

OLANREWAJU Olasheni Rilwan

Thesis: Effects of Titanium Dioxide on Fusarium Wilt (*Fusarium oxysporum* f. sp. *Lycopersici*) Control and Fruit Yield of Tomato (*Solanum lycopersicum* L.)

M. Agric. (Plant Pathology)

OBAFEMI Adebayo Ebenezer

Thesis: Effect of some Induced Ripening Agents on Postharvest Rot of Plantain (*Musa parasidiaca* L.) and the Control of Associated Fungi with Plant Extracts

ADEJORO Adetunji Emmanuel

Thesis: Incidence, Severity and Dynamics of *Xanthomonas axonopodis* pv. *Manihot esculenta* Crantz)

POSTGRADUATE DIPLOMA

AJAMU Oluwabunmi Deborah

OGUNTUNDE Janet Temitayo

OLATUNJI Bukola Christiana

OMOLE Boyinsola Oluwadamilola

Department of Horticulture

M. Agric. Horticulture

OLUGBOKIKI Abdulfatai

Thesis: Effects of Row Arrangement of Three Leaf Vegetables Intercropped with Okra (*Abelmoschus esculentus*) on Growth and Yield of the Component Crops

ADEYEMI Ifeoluwa Mary

Thesis: Effects of Potassium Permanganate in Clay Carrier on Postharvest Characteristics of Plantain (*Musa paradisiaca* L.) Fruits

AJIBONA Olusade Adeola

Thesis: Biomass Accumulation and Partitioning in Cacao (*Theobroma Cacao* Linn) as Affected by Age, Fertilizer Application and Canopy Exposure

Department of Plant Physiology and Crop Production

M. Agric. (Crop Physiology)

AINA Emmanuel Abiola

Thesis: Influence of Plant Density and Nitrogen Rate on Physiological Variables and Grain Yield of Maize (*Zea mays* L.) in a Derived Savanna

ABODUNRIN Surajudeen Abiola

Thesis: Evaluation of Production Techniques for Yield, Nitrogen and Cadmium Uptake of Lowland Rice (*Oryza sativa* L.) in a Derived Savanna Agroecology of Nigeria

M. Agric. (Crop Production)

OWOLABI Lukmon Olamileke

Thesis: Performance of Cassava/Maize Intercrop Planted at Monthly Interval in Derived Savanna Agro-Ecology of Nigeria

IJAODOLA Oluwaseun Emmanuel

Thesis: Agronomic Performance of Cotton (*Gossypium hirsutum* L.) sown after Soybean (*Glycine max* (L.) Merrill) and Sesame (*Sesamum indicum* L.) under Crop Rotation in South West, Nigeria

M. Agric. Plant Pathology

ONYENALI Tobeche Chidozie

Thesis: Effect of Organic Fertilizer Application on the Agronomic Performance of Soya Bean (*Glycine max* (L) Merrill)
